

3D Snap | Skin Vocabulary

Flat: Skin has all connection points on the same plane of the display, i.e., all front or all back.

Single Braid: Skin has only one connection point on a different plane, i.e., a 1x1 single braid would have three connections to the front and one connection to the back of the display. A 1x2 single braid would have five connections to one plane for example, the front and only one connection to the back of the display.

Double Braid: Skin has two opposing corner connection points on one plane, and the other opposing corners on The other.

Bend: Skin bends from one plane to the other in a parallel manor.

Diamond: Skin appears as a diamond on the display.
